

PARTNER WITH THE UNIVERSITY OF WASHINGTON

There are many ways to engage with the UW across our three campuses, whether your interests lie in research and innovation, current and future talent, brand visibility or elsewhere.

Offering research expertise, licensing opportunities, access to facilities and more, the UW is committed to fostering mutually beneficial relationships with our partners in business and industry.

Connect With Student Talent

Advance Your Research Interests

Upskill & Train Your Workforce

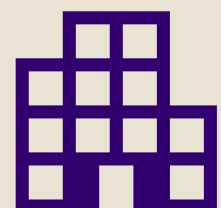

Explore Innovation, Startups & Technology Licensing

Build Your Brand Visibility

Access Facilities

MAKING MEANINGFUL CONNECTIONS

CAS Corporate & Foundation Relations can help your company collaborate with the UW by connecting you to the University's student talent, faculty expertise, research resources and more.

STUDENT TALENT

Critical thinking. Hands-on experience. Technical know-how. With these skills and more, UW students can be assets to your project or organization. Companies can recruit students for full-time positions or internships, or engage with them via student-led professional organizations.

RESEARCH OPPORTUNITIES

Supported by more than 30 interdisciplinary research centers, our researchers, staff and students collaborate to discover next-generation solutions to today's challenges. Companies can support faculty research through sponsored projects, gifts for research, participation in affiliate programs and partnering with UW researchers on federal grant proposals. Companies can also tap into UW facilities with specialized equipment to further your specific testing needs.

WORKFORCE UPSKILLING

The UW is committed to fostering robust corporate partnerships that support workforce needs and contribute to the economic strength of our region while giving your company a competitive edge. We offer you a broad range of opportunities for professional development, interdisciplinary collaborations and continuing education, including custom-designed educational programs.

INNOVATION & LICENSING

The UW is a leader in technology transfer and innovation. Our CoMotion office can help your company with exploring and licensing UW technologies and connecting you with our unique startups ecosystem.

BRAND VISIBILITY & SERVICES

Companies can promote their brands to our audiences through sponsorship, marketing and underwriting opportunities.
